PATRICK BERNARDO BUGACIA

Manila, Philippines | (+63)961-938-7880 pbbugacia@gmail.com | patricktechstuff.github.io

PROFESSIONAL SUMMARY

Full Stack Web Developer with a strong foundation in Computer Engineering. Specialized in building scalable web applications using Laravel and managing complex MS SQL Server (T-SQL) databases. Transitioned from a background in C#/.NET desktop development to modern web technologies. Experienced in technical troubleshooting, system maintenance, and automating business workflows. Currently utilizing AI tools like Gemini and Claude to optimize development efficiency.

TECHNICAL SKILLS

- **Web Development:** PHP Laravel, JavaScript, HTML5, CSS3.
- **Mobile (Ongoing):** Flutter & Dart.
- **Database:** MS SQL Server (T-SQL), Stored Procedures, Relational Database Design.
- **Legacy Stack:** C# and .NET Framework (Desktop/System Development).
- **Version Control:** Git (GitHub).
- **Productivity:** MS Office (Expert Excel for data conversion), AI-Assisted Coding.
- **Core Logic:** Systems Analysis, Logic Formulation, and Technical Troubleshooting.

WORK EXPERIENCE

Freelance Web Developer | November 2023 – Present

- Developing full-stack web applications using Laravel, focusing on clean code and efficient database structures.
- Building a Full-Stack Accounting Software with automated financial reporting (Profit & Loss, Balance Sheets).
- Leveraging AI-assisted tools for rapid debugging and researching Flutter for cross-platform expansion.

Clasiko Talent Hub Inc. | System Web Developer / Admin | April 2023 – November 2023

- Developed the agency's official website and Human Resources (HR) system using Laravel.
- Managed Payroll and Billing preparations to support administrative operations.

Efficient Business Management Outsource Inc. | System Developer | July 2015 – April 2022

- Provided technical support and contributed to the development of inventory systems for various multi-branch clients in the food and office supplies industry.
- Developed a comprehensive Cash Management System (CMS) featuring an integrated Inventory System for stock monitoring; enables users to input daily expenses and automatically converts the data into compatible formats for the company's existing financial accounting software.
- Built and deployed a Gate Pass System for commercial buildings and an Office Transmittal System.
- Automated tax compliance workflows by developing data conversion tools for BIR Relief software.

EDUCATION

Computer Engineering (Undergraduate) | Adamson University | 2012 – 2014

- Studied core engineering concepts and software development foundations.
- Focused on professional web development, specializing in the Laravel and MS SQL ecosystem.
